

Thursday, Septb 24th 2009

9:30-10:00	Registration
10:00-10:10	Opening remarks
10:10-11:00	Grasping Multimedia Streams
0:30:00	Some experiments in evaluating ASR systems applied to multimedia retrieval <i>Julián Moreno, Marta Garrote, Paloma Martínez and José L. Martínez-Fernández</i>
0:20:00	Instant Customized Summaries Streaming: a service for immediate awareness of new video content <i>Álvaro García-Martín, J. Molina, F. López, V. Valdés, F. Tiburzi, J. M. Martínez and J. Bescós</i>
11:00-11:30	Café (and Posters organization)
11:30-12:30	1:00:00 Invited Talk: N. Oliver <i>Wearable Physiological Monitoring on Mobile Phones</i>
12:30-14:00	Lunch
14:00-15:00	Pinpointing Music
0:30:00	Towards Reliable Partial Music Alignments Using Multiple Synchronization Strategies <i>Sebastian Ewert, Meinard Müller and Roger B. Dannenberg</i>
0:30:00	Note recognition from monophonic audio: a clustering approach <i>Rainer Typke</i>
15:00-16:00	Adapting Distances
0:30:00	On Adaptive Similarity Search in Audio Signals Using Sparse Approximations <i>Bob L. Sturm and Laurent Daudet</i>
0:30:00	Relevance Feedback for the Earth Mover's Distance <i>Marc Wichterich, Christian Beecks, Martin Sundermeyer, and Thomas Seidl</i>
16:00-17:00	Café and Posters (projects, future oportunities, software and products, groups description ...)
17:00-18:00	1:00:00 Invited talk: Alex Jaimes <i>Urban Sensoria: a human-centered computing project</i>
20:30	Social Dinner

Friday, Septb. 25th 2009

9:00-9:45	Registration
9:45-11:00	Understanding Images
0:30:00	Pre-semantic features for content-based image retrieval <i>Gianluigi Ciocca, Claudio Cusano, Simone Santini and Raimondo Schettini</i>
0:20:00	Extracting descriptions for Image Photo Retrieval <i>Rodrigo Agerri, Ruben Granados and Ana Garcia-Serrano</i>
0:20:00	A Continuum between Serendipitous Browsing and Query-based Search for MM Information Access <i>Julien Ah-Pine, Jean-Michel Renders and Marie-Luce Viaud</i>
11:00-11:30	Café
11:30-12:30	1:00:00 Invited Talk: S. Marchand-Maillet <i>Mining Networked Media Collections</i>
12:30-14:00	Lunch
14:00-15:10	Around the User
0:20:00	Security-relevant challenges of selected systems for multi-user interaction <i>Marcus Nitsche, Jana Dittmann, Andreas Nürnberger, Claus Vielhauer, Robert Buchholz</i>
0:20:00	Cognitive-Linguistics-based Request Answer System <i>Wolf Fischer and Bernhard Bauer</i>
0:30:00	Using Search Logs to Recommend Images to New Users <i>Yan Xu and Michael Oakes</i>
15:10-15:30	Concluding Remarks
